NovoPulse Cloud Interface Application

Installing the NovoPulse Interface Program on your PC will permit the device to communicate with the company cloud for future troubleshooting. Currently, only Windows-based systems are supported. The installation is a two-step process consisting of installing Java and the NovoPulse App.

Installation Instructions

Installing Java

- 1. Download Java from the company website: <u>https://novo-pulse.com/java</u>
- 2. Open the file location
- 3. Click on file jdk-7u7
- 4. Select YES to allow Installation

5. Select NEXT
