

The Complete Osteoarthritis Recovery Program for Chiropractors

Improve joint function. Reduce OA pain. Build a predictable, profitable service line — with a patented, turn-key system.

The Opportunity

Osteoarthritis care demand continues to rapidly expand — and most chiropractic practices still do not have a true OA recovery program. Patients are actively seeking non-invasive, non-surgical, drug-free solutions while primary care and orthopedics remain overwhelmed.

Clinics that install a comprehensive OA service now will dominate their local markets for the next decade.

What Is NovoPulse?

NovoPulse® combines patented OA joining-focused technology with a fully installed clinical and business system. It uses targeted deep electromagnetic proprietary technology enhanced with controlled thermal stimulation designed specifically for joint tissue — delivering joint-specific stimulation unavailable with traditional PEMF, laser, TENS, or shockwave

FDA Listed

Medical Device

Made in USA

6 Issued U.S. Patents

What You Receive

Patented NovoPulse® Hardware
(OA-specific stimulation technology)

Clinical Training & Provider Certification
(protocols, dosing, documentation, staff onboarding with 15 CEU available)

OA Business Installation Toolkit
(pricing, packaging, scripts, financial modeling, launch plan)

OA Patient Attraction System
(landing pages, email, social, workshops, education, and social media assets)

Lifetime Provider Portal Access
(ongoing clinical, marketing, and business updates)

Who This Is Best For

Clinics that want to build a true service line, create predictable recurring revenue, follow a structured system, and dominate their local OA market — without competing on price.

The Business Impact

Clinics consistently see predictable recurring revenue, higher patient lifetime value, stronger retention, and clear market differentiation.

Even a modest OA program (8–12 active patients/month) can create a meaningful new revenue stream. Custom projections are provided on your discovery call.

Real Patient Impact

“I was scheduled for knee surgery. After completing the OA program, I'm hiking again pain-free.”

Zero-Risk Implementation

Full certification, done-for-you launch system, staff onboarding, lifetime portal access, and ongoing implementation support. Monthly onboarding is limited to maintain quality and personalized support.

Ready to Become the OA Leader in Your Community?

On your discovery call, we'll walk through the system, review your local OA opportunity, model potential revenue, and map your 30-day launch plan.
